**What people are saying about  
The New Little Book...**

*“To be successful on the OGT, students must think differently about social studies in general and history in particular. Therefore, The New Little Book provides important facts and information, but focuses on the significance of historical events and developments as reflected in the OGT standards, benchmarks, and indicators.”*

– Allan J. Keller

*“The way this is laid out, the way it explains the vocabulary, - this is great... I know that my students are going to be very happy to see this.”*

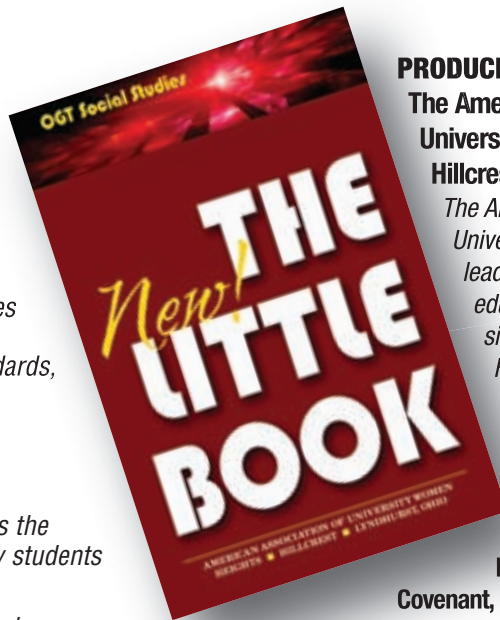

– A Social Studies department head.

*“The New Little Book is extremely high quality.”*

– Glenda Hathaway,  
Deputy Chief of Curriculum & Instruction,  
Cleveland Metropolitan  
School District.

*“A comprehensive study tool that is cross curriculum. A wonderful resource for students... a true diamond in the rough.”*

– Mathias Hauck  
A high school social studies  
teacher of at-risk students.
